DETAILED ACTION

1. This Office Action is responsive to the election filed 5-28-03 wherein claims 1-18 were elected for prosecution on the merits. The Examiner has considered the remarks filed with the election pertaining to the “means” claims and their inclusion in the elected invention, however, since the claims are not in an allowable form at this time, and the final scope of any allowable subject matter is not yet determined, the “means” claims will remain with the non-elected apparatus invention as set forth in the Restriction Requirement.

Drawings

2. The drawings are objected to because in Figure 3, there is unclear language pertaining to step 320. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1756

4. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are indefinite, confusing and incomplete since it is not seen by the Examiner how “forming” a first layer on a selected wafer can possibly have an overlay alignment error associated with it. Only a patterned layer could have an overlay alignment error for the formed features associated with it as is well established in this art.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stirton.

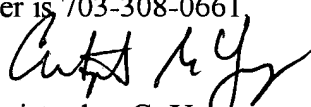

Art Unit: 1756

Initially the Examiner points out that the scope of protection sought is indefinite as set forth in paragraph # 4 above. The scope of the application appears to be limited in the manner set forth in the specification and discussed by the Examiner above. That scope is shown by Stirton at column 2, lines 12-22, and lines 48-60. The Examiner is making a 35 USC 103 rejection instead of a 35 USC 102 rejection since the scope is unclear.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher G. Young whose telephone number is 703-308-2984. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff can be reached on 703-308-2464.
